

ABOUT US

As a leader in the global chemical industry, LyondellBasell strives every day to be the safest, best operated and most valued company in our industry. The company's products, materials and technologies are advancing sustainable solutions for food safety, access to clean water, healthcare and fuel efficiency in more than 100 international markets. LyondellBasell places high priority on diversity, equity and inclusion and is *Advancing Good* with an emphasis on our planet, the communities where we operate and our future workforce. The company takes great pride in its world-class technology and customer focus. LyondellBasell has stepped up its circularity and climate ambitions and actions to address the global challenges of plastic waste and GHG emissions reduction. OUR KEY PRODUCT AREAS

LyondellBasell develops and delivers innovative products and solutions in **five key areas**:

CHEMICALS	POLYMERS	ADVANCED POLYMERS	FUELS	TECHNOLOGIES
<p>We produce the chemical building blocks for:</p> <ul style="list-style-type: none"> Furniture / household goods Coatings / adhesives / cleaners Cosmetics / personal care products Industrial fluids Fuel additives 	<p>Our versatile plastic resins are used to create a variety of products including:</p> <ul style="list-style-type: none"> Rigid and flexible packaging Textiles Automotive parts Healthcare Pipe Agricultural films/irrigation 	<p>Our diverse portfolio is used to create customizable products including:</p> <ul style="list-style-type: none"> Automotive parts Differentiated packaging Electronics / appliances Building and construction materials Oil field services Aerospace Pipe Agriculture Wire and cable 	<p>Our refinery in the U.S. produces:</p> <ul style="list-style-type: none"> Gasoline / fuel components Low-sulfur diesel Jet fuel 	<p>We license our state-of-the-art manufacturing and process technologies</p> <ul style="list-style-type: none"> Polyolefin catalysts Petrochemical process licenses

OUR MATERIALS AND TECHNOLOGIES ARE ADVANCING SOLUTIONS IN:

Food safety and access through food packaging and films that improve freshness, portability, extend shelf-life and prevent contamination.

Sustainable and modern living through components in solar panels and a variety of products such as children's toys, cosmetics, leak-proof and shatter-proof containers.

Cleaner air and fuel efficiency through stronger, lighter plastics that allow for the production of more fuel efficient cars and trucks and through special gasoline additives that help reduce air pollution from vehicles.

Quality healthcare through a variety of medical supplies including synthetic latex gloves, hand sanitizers, biohazard bags, medicine containers and pill coatings.

Clean water through strong, long-lasting pipes used in municipal water systems and key elements used in water filtration systems.

Agricultural efficiency through lighter machinery, crop protection and soil conditioning, as well as in greenhouses, landscaping and waste disposal.
