Tu Mejor Selección para Aditivos Antimicrobiales

ABACT y ABACT PNOVA son elaborados con un ingrediente activo antimicrobial base plata que son una alternativa a los productos químicos no durables.

Inhibe la formación de depósitos biológicos de difícil remoción, facilitando así la limpieza de superficies y controlando el nivel de bacterias y/o especies fúngicas.

La acción antimicrobial permanece por toda la vida útil del producto, sin alterar las características de color, transparencia y propiedades mecánicas.

Puede ser incorporado a polímeros y resinas sin alterar su proceso de producción, y pueden ser transformados hasta 600°C.

*Producto antibacterial y fungicida
**Producto antibacterial y alguicida

- Al agregar ABACT a su marca usted gana una ventaja competitiva de mercado y sus clientes reconocen ese valor.
- Producto con aprobación FDA.
- Desarrollado para que usted conquiste a quien invierte en la prevención para la salud y calidad de vida.
- Su acción antimicrobial permanente torna las superficies de contacto permanentemente libres de las amenazas invisibles del medio ambiente.

¿Cómo se evalúa el desempeño de un antimicrobial?

Método de prueba: ISO 22196 / JIS Z 2801

Standard antibacterial test for plastic applications.

Reducción de bacterias (%)	R (desempeño)
0	0,0
50	0,3
90	1,0
99	2,0
99,9	3,0
99,99	4,0

R
Es un valor de 0-5
que indica que
tan efectivo es un
biocida

ABOUT US

LyondellBasell (NYSE: LYB) is one of the largest plastics, chemicals and refining companies in the world. Driven by its 13,400 employees around the globe, LyondellBasell produces materials and products that are key to advancing solutions to modern challenges like enhancing food safety through lightweight and flexible packaging, protecting the purity of water supplies through stronger and more versatile pipes, and improving the safety, comfort and fuel efficiency of many of the cars and trucks on the road. LyondellBasell sells products into approximately 100 countries and is the world's largest licensor of polyolefin technologies.
