

Tu Mejor Selección para Aditivos Antibloqueantes para PE

- Excelente desempeño antibloqueante.
- Mantiene las propiedades ópticas de la película (Haze, Brillo, Transparencia).
- Reduce la fricción entre películas, y mejora el desempeño de aditivos deslizantes.
- Incrementa la productividad en líneas de empaque.
- Excelente dispersión.
- Al agregar *POLYBATCH ANTIBLOCK* a su marca usted gana una ventaja competitiva de mercado y sus clientes reconocen ese valor.
- Productos con aprobación FDA.

Nuevo

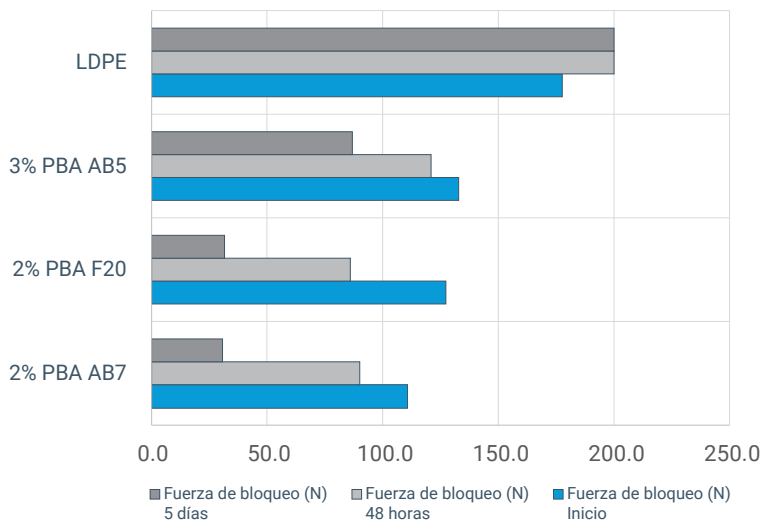

POLYBATCH AB7 es elaborado a base de un ingrediente mineral de baja abrasividad, cuya estructura cristalina le confiere un índice de refracción similar al de las poliolefinas, manteniendo las características de color, **transparencia** y propiedades mecánicas de las películas plásticas.

Por ser un aditivo inorgánico, el desempeño antibloqueante es excelente.

Puede ser incorporado a polímeros y resinas sin dificultar su proceso de producción.

Para lograr mejores resultados en la modificación de superficies plásticas, se recomienda utilizarlo en combinación con aditivos deslizantes.

POLYBATCH FSU 1025E es un combo deslizante-antibloqueante que ayuda a obtener niveles bajos de coeficientes de fricción, mientras mantiene la transparencia en las películas plásticas.

ABOUT US

LyondellBasell (NYSE: LYB) is one of the largest plastics, chemicals and refining companies in the world. Driven by its 13,400 employees around the globe, LyondellBasell produces materials and products that are key to advancing solutions to modern challenges like enhancing food safety through lightweight and flexible packaging, protecting the purity of water supplies through stronger and more versatile pipes, and improving the safety, comfort and fuel efficiency of many of the cars and trucks on the road. LyondellBasell sells products into approximately 100 countries and is the world's largest licensor of polyolefin technologies.
